1 PREPARE FOR SETUP

1. Spread tent out; stake out five corners tightly.

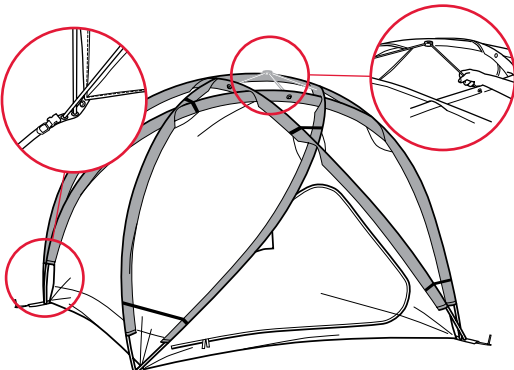

2 SETUP TENT

1. Thread any two orange poles into any two pole sleeves, round end first, and insert pole tips into grommets on stake loops.
2. Thread remaining three orange poles into pole sleeves and insert pole tips into grommets on stake loops.

3 SETUP RAINFLY

1. Put tripod peak on top of tent; insert tips of tripod into grommets in pole sleeves.
2. Thread silver vestibule pole into sleeve on underside of fly.

4 ATTACH RAINFLY

1. Lay rainfly over tent; make sure two doors on rainfly align with two doors on tent.
2. Insert vestibule pole tips into remaining grommets on either side of tent body door; clip and tighten buckles at all stake loops.
