New Poles for 2012

Several years in the making, the new MSR® all-season pole line revolutionizes how people interact with their poles. Each of the three new models feature a patent-pending SureLock™ adjustment system that reinvents the concept of a positive-locking mechanism, delivering absolute, no-slip pole performance in all conditions. For more varied and challenging terrain, two of the models feature a one-hand operated Trigger Release sleeve, providing the unmatched ease of on-the-fly adjustment. Built with the best premium materials, this targeted selection of poles delivers versatile, year-round dependability and performance.

SureLock™ TR-3

A compact, all-season, three-section pole featuring the SureLock™ adjustment system and fast, one-handed trigger release for aggressive backcountry travelers demanding rapid adjustment capability on frequently changing terrain.

Key features include:

- **SureLock™ Adjustment System:** A patent-pending positive-locking mechanism that eliminates pole slippage.
- **Fast, Easy Trigger Release:** Glove-friendly, one-handed activation for fine-tuning of pole length in the field, or a complete collapse for easy packing.
- **Efficient Strength:** 7000-series aerospace-grade aluminum pole sections are formed with unique wall thickness to target durability where it's most critical.
- **Compact:** Three-section design offers maximum compactness without sacrificing overall strength.

Standard

Size Range: 105-130 cm
Weight Per Pair: 18.9 oz. / 536 g
Collapsed Size: 57 cm
Retail USD: \$149.95

Long

Size Range: 115-140 cm
Weight Per Pair: 19.9 oz. / 564 g
Collapsed Size: 60 cm
Retail USD: \$149.95

Color: Mustard

Includes both Snow and Trekking Baskets

Release Date: January 2012

SureLock™ TR-2

A versatile, all-season, two-section pole featuring the SureLock™ adjustment system and fast, one-handed trigger release for use through a wide range of pursuits. Designed for those who find themselves most often with pole in-hand, rather than stowed on their pack.

Key features include:

- **SureLock™ Adjustment System:** A patent-pending positive-locking mechanism that eliminates pole slippage.
- **Fast, Easy Trigger Release:** Glove-friendly, one-handed activation for fine-tuning of pole length in the field, or a complete collapse for easy packing.
- **Efficient Strength:** 7000-series aerospace-grade aluminum pole sections are formed with unique wall thickness to target durability where it's needed most.

Standard

Size Range: 105-130 cm
 Weight Per Pair: 20.1 oz. / 570 g
 Collapsed Size: 73 cm
 Retail USD: \$129.95

Long

Size Range: 115-140 cm
 Weight Per Pair: 21.4 oz. / 607 g
 Collapsed Size: 78 cm
 Retail USD: \$129.95

Color: White

Includes both Snow and Trekking Baskets

Release Date: January 2012

SureLock™ UL-2

An ultra-light, all-season pole featuring the SureLock™ adjustment system and manual operation. Designed specifically for those seeking to shed weight, not performance.

Key features include:

- **SureLock™ Adjustment System:** A patent-pending positive-locking mechanism that eliminates pole slippage.
- **Streamlined Construction:** Engineered with manual operation for those seeking simplicity in design and the lightest weight possible.
- **Efficient Strength:** 7000-series aerospace-grade aluminum pole sections are formed with unique wall thickness to target durability where it's most critical.

One Size

Size Range: 105-140 cm
 Weight Per Pair: 16.2 oz. / 459 g
 Collapsed Size: 78 cm
 Retail USD: \$89.95

Color: Gray

Includes both Snow and Trekking Baskets

Release Date: January 2012

SureLock™ UL-3

An ultra-light, all-season pole featuring the SureLock™ adjustment system and manual operation. Designed specifically for those seeking to shed weight, not performance.

Key features include:

- **SureLock™ Adjustment System:** A patent-pending positive-locking mechanism that eliminates pole slippage.
- **Streamlined Construction:** Engineered with manual operation for those seeking simplicity in design.
- **Efficient Strength:** 7000-series aerospace-grade aluminum pole sections are formed with unique wall thickness to target durability where it's needed most.
- **Compact:** Three-section design offers maximum compactness without sacrificing overall strength.

One Size

Size Range:	110-140 cm
Weight Per Pair:	14.4 oz. / 408 g
Collapsed Size:	61 cm
Retail USD:	\$109.95

Color: Champagne

Includes both Snow and Trekking Baskets

Release Date: July 2012

Pole Maintenance Kit

An add-on kit for periodic maintenance and after-use drying to keep poles running smooth year-round.
