New and Updated Stoves for 2012

MicroRocket™

The MicroRocket stove packs small but burns big. More compact than the original PocketRocket™ stove, it fits easily inside an MSR® Insulated Mug, and sheds 10 g (.4 oz.) of weight. The stability of the pot supports has also been boosted, while maintaining a robust, wind-resistant flame with WindClip™ protection. Includes a hand-held Piezo igniter.

Minimum Weight: 75g | 2.6 oz.
Packaged Weight: 119g | 4.2 oz.
1L Boil Time: 3.5 minutes
Burn Time: 60 minutes (per 227g / 8 oz. fuel canister)
Fuel: Canister

Retail USD: \$59.95
Release Date: January 2012

WhisperLite™ Universal

The legend continues with the WhisperLite Universal stove, the first MSR brand hybrid-fuel stove, combining canister and liquid fuel capabilities into one comprehensive package. Fuel-specific jets and fuel source couplers let it burn just about anything, anywhere. A trail-friendly, light, packable design and capacity to burn an inverted canister for improved performance make it unique in its class. Inverted canister stand included.

	White Gas	Kerosene	Canister
Minimum Weight*:	326g 11.5 oz.	326g 11.5 oz.	268g 9.5 oz.
Packaged Weight*:	467g 16.5 oz.	467g 16.5 oz.	430g 15.02 oz.
1L Boil Time:	3.5 minutes	4.4 minutes	3.75 minutes

WindPro™ II

Featuring the incredible efficiency and versatility of the original WindPro stove, adapted to burn inverted canisters for liquid-feed. The results are increased cold weather performance, faster boil times and a more consistent output over the life of every canister. Inverted canister stand included.

Minimum Weight:	187g 6.6 oz.
Packaged Weight:	327g 11.5 oz.
1L Boil Time:	3.6 minutes
Burn Time:	70 minutes (<i>per 227g / 8 oz. fuel canister</i>)
Fuel:	Canister
