E-Case™ Protective Cases

iSeries™ Cases

From soggy ski jackets to the big water and sand of the Grand Canyon, iSeries cases provide the assurance of reliable, all-weather protection from the elements for the most popular take-everywhere Apple® devices. Even better, that peace-of-mind still affords the full functionality of iPads®, iPhones®, and iPods®, featuring model-specific forms that also accommodate a wide array of today's latest digital accoutrements.

Functional Features:

- Tough urethane windows remain supple and clear, offering screen protection while allowing full touchscreen compatibility.
- External headphone jacks on select models allow plug-in regardless of weather.
- Model-specific designs allow operation of cameras and buttons while protected.

Protective Features:

- Individually tested to withstand submersion at 1 meter for 30 min. (IP-X7 standard)
- Die-cut lash points provide tethering options for high adventure.
- SealLock™ Zipper seals reliably and opens easily for access.

eSeries™ Cases

Made with flexible, PVC-free material and now available in new sizes, these cases protect a wide range of valuable gear, from phones and GPS units, to e-readers and tablet PCs. Waterproof SealLock™ zipper closures provide fast, easy access, while the clear, supple windows allow full use of electronics, even while in the case.

Functional Features:

- Tough urethane windows remain supple and clear, offering screen protection while allowing full touchscreen compatibility.
- Sized to fit a wide variety of electronic devices.

Protective Features:

- Individually tested to withstand submersion at 1 meter for 30 min. (IP-X7 standard)
- Die-cut lash points provide tethering options for high adventure.
- SealLock™ Zipper seals reliably and opens easily for access.
