NeoAir™ XTherm

This four-season air mattress features a cutting-edge combination of technology, design and materials, making it the warmest mattress in the NeoAir™ mattress collection. The patent-pending multiple-layer design of the NeoAir Reflective Barrier achieves warmth in extreme conditions with multiple layers that reflect heat back to the user's body and reduce convective heat loss to the ground. The patent-pending Triangular Core Matrix design creates internal walls that trap warm air while providing a stable, comfortable sleeping platform. Advanced fabrics and a tapered design offer exceptional compressibility, compactness and light weight.

40th Anniversary Edition

In 1972, Cascade Designs patented the first Therm-a-Rest[®] self-inflating mattress. In celebration of the 40-year anniversary, the company is releasing this limited edition mattress, retro-branded with the original 1972 logo and mattress color. It may look like a throwback, but features an exclusive cutting-edge, lighter-density foam, resulting in the most comfortable, thickest and warmest self-inflating mattress in the Fast & Light[®] category. The individually serial-numbered mattresses also feature a glow-in-the-dark valve and a new soft-grip bottom fabric to prevent slipping on the tent floor.
