New & Updated Products for 2012

NeoAir™ XTherm

This four-season air mattress features a cutting-edge combination of technology, design and materials, making it the warmest mattress in the NeoAir™ mattress collection. The patent-pending multiple-layer design of the NeoAir Reflective Barrier achieves warmth with multiple layers that reflect heat back to the user's body and reduce convective heat loss to the ground. The patent-pending Triangular Core Matrix design creates internal walls that trap warm air while providing a stable, comfortable sleeping platform. Advanced fabrics and a tapered design offer exceptional compressibility, compactness and light weight.

40th Anniversary Edition

In 1972, Cascade Designs patented the first Therm-a-Rest® self-inflating mattress. In celebration of the 40-year anniversary, the company is releasing this limited edition mattress, retro-branded with the original 1972 logo and mattress color. It may look like a throwback, but features an exclusive cutting-edge, lighter-density foam, resulting in the most comfortable, thickest and warmest self-inflating mattress in the Fast & Light® category. The individually seria-numbered mattresses also feature a glow-in-the-dark valve and a new soft-grip bottom fabric to prevent slipping on the tent floor.
