1 PREPARE FOR SETUP

1. Spread tent out; stake out four corners tightly.

2 SETUP TENT

1. Thread 2 longest orange poles into pole sleeves that run the length of tent, round end first, and insert pole tips into grommets on stake loops.

3 SETUP TENT

1. Thread medium-length orange pole into pole sleeve that runs side to side across middle of tent body and insert pole tips into grommets on stake loops.

4 ATTACH RAINFLY

1. Thread silver vestibule pole into sleeve on underside of fly.
2. Lay rainfly over tent.
3. Insert vestibule pole tips into remaining grommets on either side of tent body door; clip and tighten buckles at all stake loops.
